- Node.js — 1 years

Soft skills

- Problem-solving
- Communication
- Teamwork
- Adaptability
- Attention to details
- Creativity

Languages

- Romanian - Native
- English - B2

Other experiences

- Zamolxes Foundation - volunteer
- "Glasul Autismului" Association - volunteer

With **2 years of experience in Fullstack Development**, coding feels like a canvas. Like an artist that creates a masterpiece brush by brush, I love to create experiences line by line. I love to be the man behind the camera, oh and I also love animals!

Work Experience

Fullstack Engineer
February 2025 - Present
10 month

Company: **BookVitals** - freelance

- **Developed an performant landing page** using using Next.JS 15 and TailwindCSS, integrating smooth animations for enhanced user experience, while focusing on accessibility, SEO and performance optimization.
- **Developed and improved multiple custom CMS platforms,** adding new features like file uploads and faster content management tools to make daily work easier and enhance the user experience, increasing productivity by 100%
- **Implemented a mobile notification system** in React Native and Expo, improving user retention and re-engagement rates by 25%
- **Created and improved internal analytics and automation features** to help the marketing team work more efficiently and make better data-driven decisions.

SKILLS: Next.JS, Firebase, Supabase, React, TailwindCSS, Typescript, Javascript SEO, Node.JS, Deno, Git, SQL, PostregSQL, AI Tools, Prompt Engineering, Figma

Frontend developer
August 2024 - February 2025
7 months

Company: **I to IT** - freelance

As a Frontend Developer at I to IT, I implement and optimize features for the learning platform, collaborating with the backend team to ensure a seamless functionality and a user-friendly experience.

- **Built a proper landing page** using HTML, CSS and JavaScript, focusing on both aesthetics and performance. By focusing on optimized code, I significantly improved the landing page, achieving an almost perfect score, greatly enhancing it's SEO, performance, accessibility and user engagement.
- **Analyzed and optimized existing features**, updating them to align with the latest frontend development best practices. This included improving performance, cleaning up redundant code, and ensuring the features were responsive and intuitive. By doing so, I enhanced the overall user experience and ensured the platform is future-ready.

SKILLS: ReactJS, React Router, TailwindCSS, CSS, Javascript, Git, Figma

Fullstack Developer
July 2022 - September 2022
3 months

ONG: **Zamolxes foundation** - volunteer

The client, an NGO focused on youth development, required a new, faster website to replace their initial WordPress site, which did not meet the quality standards the NGO demanded.

- **Developed a completely new version of the website,** transitioning it from WordPress to React, TypeScript (frontend) and PHP (backend), improving usability, functionality and SEO.
- **Design and implemented the architecture of the file storage system and database**, ensuring seamless file uploads and data management, as the website lacked a proper system for handling files and data.
- **Developed an admin page** that allows administrators to easily manipulate and update the data on the website, as the NGO required a way to manage website data effectively.

SKILLS: ReactJS, Typescript, SASS, PHP, phpMyAdmin, MySQL, XAMPP, Git, Figma, CPanel, Insomnia
